Step 5.

I selected the review entitled Kumakua, Wow just Wow. This was written by the one of the well loved admins on the Kava Forums, Krunky. The reviewer will assign an overall rating to the kava, the potency, mind (Heady) effects, body (Heavy) effects, anxiety relief effects, and sedative effects. He may comment on how he prepared the kava, side effects, taste, and finally an summary statement about this kava. At this point the members can reply to the thread to ask questions or to add their own impressions of the kava. At the Kava Forums, it's a group effort and there is great camaraderie and love between the members. As I stated earlier, all the recommended vendors reside there and there are literally 100s of unbiased reviews.
